SUMMARY

Retoucher and creative technologist with more than ten years in fashion and luxury imagery for Inditex, Mango and Carolina Herrera. I now run AI-assisted image production: one shoot becomes every format a campaign needs, the product stays untouched, and AI use is declared on every asset.

KEY RESULTS

- Reached the final round of an LVMH maison pitch for Holiday 2026 and delivered the test in 2 days.
- Built HERA Skin Lab, a skin retouching engine that raised skin fidelity from 0.33 to 0.83 on a test bench.
- Produced photography, 3D and video product imagery for 30+ markets at Inditex.
- Deliver every campaign format within 48 hours of one approved master at HERA Studio.

EXPERIENCE

Founder & Creative Director · HERA Studio, Madrid 2026 – Present

AI image production for luxury: campaign versioning, product-faithful retouching and a provenance record per asset.

Photo & Digital Graphic Designer · Locco, Madrid 2025 – Present

Photography, retouching and design for davidlocco.com, social channels and the Asia campaign.

Freelance Retoucher & Creative Director · Madrid 2018 – 2025

Retouching, creative direction and colour grading for fashion and lifestyle brands.

Creative Technologist, dual apprenticeship · Hogarth (WPP), Madrid 2024 – 2025

Generative AI brand content with Midjourney and ChatGPT, including the Toyota C-HR.

Assistant Art Director · Warner Bros. Entertainment 2023 – 2024

Graphic design, concept sketches and illustration; logistics and purchasing.

Retoucher · Tempe (Inditex), Alicante 2021 – 2022

Photography, 3D and video for 30+ markets, product-image analysis for e-commerce and an internal photo plan.
