*I know why generated images look fake, and I build the tools that fix it.*

WORKED WITH Zara · Inditex / Carolina Herrera / Purificación García / Hogarth · WPP / Nacho Ricci

## WHAT I DO

DIAGNOSIS

### Why an image reads as fake.

Six measurable signatures, from identical detail in all three colour channels to flat grain. Prompting fixes none of them.

TOOL BUILDING

### Shipped and live.

Web apps on Vercel and Cloud Run that call Gemini and Replicate models, built with Claude Code under my direction.

CLIENT SIDE

### Luxury brief to live demo.

I can sit with a brand committee and with engineers in the same week. Pitch-tested with an LVMH maison.

## PROOF

- **HERA Skin Lab, measured on a test bench:** fidelity up from 0.33 to 0.83 and 65% more micro-texture reaching the photo. Fed a completely different face, it lets through under 0.4 of 255 luminance levels of structure. ← *real bench numbers*
- **Final round of a competitive pitch for an LVMH maison:** Holiday Season 2026 campaign visuals. NDA signed, test delivered in two days, responsible-AI questions answered point by point for the group's committee.
- **Zara Woman, Inditex:** sourced and published photography, 3D and video to each country's site and formats. The same multi-market versioning HERA now runs with AI.

## BUILT & SHIPPED

**HERA Skin Lab**
heraskinlab.com

Moves real skin texture from an AI pass onto the original photo without changing the face, and switches itself off wherever the model invented detail.
Gemini image models · optical flow · TypeScript · Cloud Run

**HERA Studio**
hera-vercel.vercel.app/studio

Campaign app: diffusion upscaling through serverless functions, a 1080×1350 carousel builder, scheduler and moodboard. Built for the iPhone first.
React · TypeScript · Vite · Replicate · Vercel

## EXPERIENCE

**Founder & Creative Director** · HERA Studio, Madrid — 20XX – now
AI-assisted image production for luxury: campaign versioning, product-faithful retouching and the HERA Passport, a provenance record shipped with every asset.

**Creative Technologist, internship** · Hogarth (WPP), Madrid — Aug 2024 – Jan 2025
Generative AI for brand content: prompt design, Midjourney and ChatGPT workflows, storytelling.

**Online Product Manager** · Inditex, Zara Woman — 20XX – 20XX
Commercial planning and samples; photography, 3D and video published to each country's site; product-image analysis on the web grid.

**Creative Image Retoucher** · Carolina Herrera, Purificación García · Ourense — 20XX – 20XX
Colour, texture and form retouching with the creative teams, holding one visual line across campaigns.

**Colourist, internship** · Bymatallana Art Partner, New York — 20XX
Seasonal palettes, colorimetry lab and digital dye formulation; colour correction for film and commercials.

**Digital Retoucher, then Coordinating Manager** · Nacho Ricci, Buenos Aires — 20XX – 2014
Retouched for photographers and designers, then ran the studio's creative team, budget and production.

## HOW I USE AI

AI speeds the work up. The eye, the taste and the final call stay human.

I don't use it on product design; that belongs to the house. I use it to multiply what was already shot, and I say where.

## ALSO BUILT

GEO AUDIT
Measures how AI assistants describe and recommend a business.

CLAUDE AGENT SKILLS
Image QA before delivery, manuscript editing in English and Spanish, Instagram editorial kits and a daily project stand-up.

## STACK

Photoshop · Lightroom · Midjourney · Gemini · Nano Banana · Google AI Studio · Google Flow · Replicate · ChatGPT · Claude Code · Figma Make · React · TypeScript · Vercel · Cloud Run · C2PA · Content Credentials

## WRITING · AS DENNO GAMBOA

*Golpe de estado*
First novel, a literary thriller: three men run together every morning for forty-six days. In final revision.

*The Receipt*
Its fourth chapter, in English. On submission.

*Verde agua*
Six-episode drama series. Bible complete.

## LANGUAGES

SPANISH
Native

ENGLISH
Advanced. I write fiction in it.

## EDUCATION

AAAP · ARGENTINA
Advertising creative

IFCD0110 · MADRID
Certificate in web design and publishing
