linkedin.com/in/your-handle

I turn one shoot into every version a campaign needs. The product stays untouched and the AI is declared.

WORKED WITH Zara · Inditex / Mango / Carolina Herrera / Purificación García / Warner Bros. / Hogarth · WPP / Locco

WHAT I DO

VERSIONING

One shoot, every format.

A master you already own becomes every format, market and duration, without rebuilding the set.

PRODUCT FIDELITY

The product stays untouched.

Shape, setting and stitching locked to the real piece in every version. Skin and colour finished by hand.

PROVENANCE

AI declared, never hidden.

Deliveries built for Article 50 of the EU AI Act: AI use declared, provenance traceable, confidential by default.

HOW I USE AI

AI speeds the work up. The eye, the taste and the final call stay human.

I don't use it on product design; that belongs to the house. I use it to multiply what was already shot, and I say where.

PROOF

- **Final round of a competitive pitch for an LVMH maison** (Holiday 2026 campaign visuals): test delivered in two days, responsible-AI questions answered for the group's committee.
- **HERA Skin Lab, measured on a test bench:** fidelity 0.33 → 0.83, 65% more micro-texture, and under 0.4/255 levels of identity leak even when fed a different face. ← *real bench numbers*
- **Zara Woman, Inditex:** photography, 3D and video published to the sites of 30+ markets. The same multi-market versioning HERA now runs with AI.

BUILT & SHIPPED

HERA Skin Lab
heraskinlab.com

Moves real skin texture from an AI pass onto the original photo without changing the face, and switches itself off wherever the model invented detail.

Gemini image models · optical flow · TypeScript · Cloud Run

EXPERIENCE · NEWEST FIRST

Founder & Creative Director · HERA Studio, Madrid NOW
AI-assisted image production for luxury: campaign versioning, product-faithful retouching and the HERA Passport, a provenance record shipped with every asset.

Photo & Digital Graphic Designer · Locco, Madrid NOW
Photography, retouching and digital design for Locco's website, social channels and campaigns, including its Asia campaign.

Creative Technologist, apprenticeship · Hogarth (WPP), Madrid
Generative AI for brand content: visual narratives with Midjourney and ChatGPT, AI production workflows, generative visuals for the Toyota C-HR.

Assistant Art Director · Warner Bros. Entertainment, Madrid
Graphic design for the art department, concept sketches and digital illustration; logistics and purchasing.

E-commerce Retoucher · Mango

Online Product Manager · Inditex (Tempe), Zara Woman · Alicante
Photography, 3D and video for the sites of 30+ markets, product-image analysis for e-commerce, and an internal photo plan so every department worked from quality images.

Creative Image Retoucher · Carolina Herrera, Purificación García · Ourense

Colourist, internship · Bymatallana Art Partner, New York

Retouch and post-production · Phoenix Studio

Digital Retoucher, then Coordinating Manager · Nacho Ricci, Buenos Aires
Retouched for photographers and designers, then ran the studio's creative team, budget and production.

PARALLEL TRACK denno, my freelance practice: retouch and creative direction for fashion and lifestyle brands, social and campaign content, photo and video grading.

ALSO BUILT

GEO AUDIT
Measures how AI assistants describe and recommend a business.
